[Note to Editors]

<About JIMTOF >

A machine tool specialized exhibition, JIMTOF is regarded as one of the largest international technology exhibitions in the world, which introduces machine tools and their surrounding machines as a whole range exhibition for manufacturing companies and institutions. It also introduces the latest and most cutting-edge technologies and products in the area of machine tools. JIMTOF has been held biennially for over 50 years since 1962 and marks its 33rd times in 2026. In JIMTOF 2026, products of a variety of industries including Metal Cutting Machine Tools, Metal Forming Machine Tools, Machine tool accessories, Tools for machines (cutting tool & wear-resistant tool), Diamond and CBN Tools, Grinding wheels and abrasives, Gears and Gear Devices, Oil hydraulic, pneumatic and Water hydraulic machinery, Precision measuring machines and instruments, Optical measuring instruments, Testing machinery and CAD/CAM, among others, will be exhibited, and the latest information of products and technologies will be shown to the visitors. JIMTOF has an established reputation as an exhibition where visitors can obtain the latest information on a variety of products used in the manufacturing industry. For details, please refer to the attached file.
